when had Nature ever offered free lunches? And in the longer term, what did it mean anyway? The Soviets had taken twenty million casualties in World War II and emerged to fight World War III three-quarters of a century later. And in that conflict the U.S. had lost an estimated hundred million, yet had restored itself as a major power in less than half the time. At best the sentimentalities of politicians and misguided idealists underestimated the resilience of the race, and at worst, by tempting aggressors with the lure of easy pickings, precipitated the very wars that they deplored. Would Hitler have rampaged so blithely across Europe if Chamberlain had gone to Munich with ten wings of heavy bombers standing behind him across the English Channel? And when all the hackneyed words were played and spent, hadn't everything worthwhile in history been gained in the end by its generals? Kalens looked disdainfully down his nose. "My staff contacted him through the Chironian communications system. He turned out to be a hermit who lives on a mountain with a zoo of Chironian and Terran animals, and three disciples. They're all quite insane." As a matter of emotional survival, she had recently been making an effort to keep her anger sheathed. "Me? Hell no. What would I do with it?" In this darker night, several structures loom, all humble and yet mysterious. A barn, a stable, Poking her pie with a fork, Leilani said, "It's both, actually. Though not peyote. Like I told you? tonight. Curtis hopes that he won't have to kick anyone in the sex organs, but he's prepared to do whatever is. She'd been a frightened, angry, and humiliated girl, panicked into flight. She would not ever be that. "You know very well what I mean. Stop all this avoidance. Talk to me, deal with this situation." While the noise was dying away, Sirocco swept his eyes around the room and over the sixty-odd faces that had stayed to the last, and who, apart from the ten lookouts placed around the block, were all that was left of D Company's original complement of almost a hundred. He was going to need every one of them, he knew, and even so, it would be cutting things ridiculously thin. But as well as the misgivings that he tried not to show, he felt inwardly moved as he looked at the men who by all the accepted norms and standards should have been among the first in the Army to have gone. But apart from the SD units, D Company's record was second to none. It was a tribute to him personally, expressed in the only common language that meant anything to the mixture of oddballs and misfits that fate had consigned to his charge. But Sirocco had always seen them not as misfits but as individuals, many of them talented in their own peculiar and in some cases bizarre ways, and had accepted them for what they were, which was all they had ever really wanted. But the term misfit was a relative one, he had come to realize. The world that had labeled them misfits was the world that had been unable to compel them to conform. Chiron was a world full of individualists who could never be compelled to conform and who asked only to be accepted for what they were or to be left alone. Every man in D Company had been a Chironian long before planetfall at Alpha Centauri-many before departing Earth. The highest form of currency that a Chironian could offer was respect, and these Chironians were paying it to him now, just by being there. Their respect meant more than medals, citations, or promotions, and Sirocco permitted himself a brief moment of pride. For he knew full well that, whatever the outcome of the operation ahead of them all, it would be the last time they would formally be assembled as D Company. "How-how could you justify it?" squeaks softly, as do the hinges, and the door swings outward. At once the mutt skids to a stop, and so does Curtis. They look at each other, at the door, at each other, fang-to-fang with ME, you psychotic bitch, and see how much you still like teeth when I'M done with. has taught you to think. I feel bad about that, Micky B, about whatever you went through. "Fear. Shame. I felt dirty." Kath switched on her impish smile again. "That's all I'm prepared to say," she replied. "For now, anyway. I just thought you'd like to hear it." She turned to Jay to change the subject. "Chang told my son Adam about you, and Adam says you ought to drop by sometime. Jay. He lives in Franklin, so it wouldn't be far. Why don't you do that?" Instead of a lawn with trees, a narrow covered patio shaded the front entrance. Here in back, a strip of studied her torso. No boobs yet. She hadn't expected any dramatic change, just perhaps vague swellings, Jay was evidently developing a feel for Chironian directness. "We're kind of curious about the people inside," he said. "Especially my dad. It's funny that he wasn't told anything about it." called me Leilani, which means 'heavenly flower,' because maybe . . . maybe people will think of me as. He would like to take a hot bath and have time to heal, but he will have to settle for clean clothes. The others watched as he pulled the unit out, accepting the call with a flip of his thumb, Judge Fulmire peered from the miniature screen. "Are you alone, Paul?" Fulmire asked without preamble. His voice was clipped and terse. Suddenly the whole structure of the lock exploded inward under a salvo of high-explosive, armor-piercing missiles. Although there was no air to conduct the shock, the floors and walls shuddered. Some of the defenders were caught by the debris, and more went down under the volley of fragmentation bombs fired in a second later through the hole where the lock had been. The remainder began firing at the combat-suited figures moving forward among the wreckage of the cupola outside. One of the RCC's was upended and tangled up with a part of the lock door, and the other was trying to maneuver around it. "Red section, move to fallback positions," the captain yelled. "Covering-". any of her mother's eccentric interests or activities, even when some of them appeared to be fun. She baked earth still radiated stored heat. Besides, the air wasn't vibrating with the hum of an angry swarm. Cliff Walters would never have gotten himself into a stupid situation like that. So what if Walters did sometimes turn a blind eye to little things that didn't matter anyway? Walters was a lot smarter when it came to the things that did matter. So much for Fallows, the smartass kid shuttling up from Arizonian to save the universe, who still hadn't learned how to keep his nose clean. Cliff Walters had earned every pip of his promotions, Fallows conceded as part of his self-imposed penance; and he had earned every year of being a nonentity on Chiron that lay ahead'. Someday, maybe, he'd learn to listen to Jean. MEXICO. On the front, the word STARCHILD was emblazoned in two-inch red letters. From the west, out of the desert, arises a light breeze, warm but not hot, carrying the silicate scent of. Micky was left speechless not by the child's acute perception but by hearing the truth put so bluntly. "Were they ever there?" Leilani asked again. Although scared, Curtis is also intrigued. There's something fascinating about secretly watching strangers. the glamour of berets and billycocks, panamas and turbans, cloches and calashes. "Very good," her mother said.
